Il Cinema Ritrovato discover never-before-seen works and rediscover those we've loved forever, with the screening of the best copies, newly restored, and with ideal projection conditions.

They present with the work of many outstanding experts; with a selection of four hundred films, each notable for its beauty, significance, and rarity; with prominent guests and representatives; with an amazing team of musicians and composers who'll accompany the silent film screenings.

In this presentation, Mariann Strauli and Karl Wratschko will talk about their work as a curator of Il Cinema Ritrovato, and the condition of digitalization of their archive.

This will be a great opportunity for all of you who are interested in cinema and media studies.
